

Repdigit Deceleration

Dear fellow-humans of the planet,
the pace of society is becoming ever faster; society is becoming more and more corrupt and devoid of love. This is what makes „DECELERATION“ so imperative.
The tendency is for people to retreat emotionally from the stress and the hustle and bustle of our every day reality in ever more constricting isolation and narrow social circles, resulting in people growing apart and becoming ill; a sad tendency which carries on until today.

Since the beginning of the dawn of the new era, we visionists have aimed with intensity and efficacy to unite and become active by means of DECELERATION.
Our call for worldwide REPDIGIT-DECELERATION is intended to guide all people to Love, Harmony and Peace. A togetherness with mutual respect towards and for each other can nevertheless only occur when we manage to share a common state of equilibrium.

Deceleration is a performance; an exercise in a very slow, dance-like, walking Tai-Chi-Qigong type- Yoga style- flowing, meditative movement.
A new type of aesthetic art of bodily „DECELERATION“ is coming into being.

The choreography is spontaneous and manifests in varying constellations of a pair, a trio, a quartett, a quintett, etc.
The aesthetically beautiful visual spectacle has a healing effect on wounded souls which are unfortunately extremely numerous with a tendency to increase.

The performance is extremely easy for ANYONE to learn.

By means of „DECELERATION“ we charge ourselves with positive, powerful energy, images of harmony are imprinted in our memories which pep us up in our dreams and give us pleasure.

We take the beneficial after-waves (vibes) as a bodily memory and experience ourselves and each other in HARMONY and LOVE!

In this way we seek to demonstrate in Harmony and Love on every repdigit day of the month.
We invite anyone to participate; for more Love and Patience with each other; more understanding for each other and more Friendship and Peace between us all.

The **repdigit-decelerations** are planned for the **04.04. / 05.05. / 06.06. / 07.07.** - etc.
